CONCLUSION

INTRODUCTION

Blockchain technology has revolutionized value and asset exchange, and with the emergence of Non-Fungible Tokens (NFTs), we now have a secure and unique representation of digital assets.

Introducing the **FrozenAI** a community Driven project backed by , a rare and limited NFT that brings both excitement and value to the Arbitrium Blockchain.

The FrozenAi Token FROZE has a total Supply of 50Quadrillion Froze with 40% of its total Supply allocated to OG NFT Holders.

This white paper aims to explore the problems addressed by FrozenAI OG NFT, the solutions it provides, and the attractive tokenomics that make it an appealing investment opportunity.

PROBLEMS

The NFT market suffers from a lack of uniqueness and scarcity, as many NFTs are easily duplicated and lack inherent value, which makes them unappealing to collectors and investors.

Additionally, the lack of transparency in the market makes it difficult for buyers to evaluate the true value of an NFT.

Moreover, many NFTs lack utility, providing no additional benefits beyond their intrinsic value.

SOLUTIONS

FrozenAI OG NFT resolves these issues by offering a rare and limited NFT with a supply limited to 5,000.

Each NFT is unique and represents a valuable asset that can be easily verified on the Arbitrium Blockchain.

Additionally, holders of FrozenAI OG NFT will receive FrozenAI tokens through an airdrop, enhancing the value of the NFT. The FrozenAI token, designed to appreciate over time, adds further value to FrozenAI OG NFT holders.

FROZENOMICS

The **FROZE** token has a total supply of 50 quadrillion, with 40% allocated to FrozenAI OG NFT holders. This ensures that NFT holders have a significant stake in the token and can benefit from its potential increase in value. Furthermore, 5% of the tokens will be allocated to ARB Airdrop claimers, boosting the adoption of the FrozenAI token. 35% will be allocated to liquidity to maintain token price stability. 5% will be allocated to team which will be locked for 12 month at launch, and 10% will be used for CEX Listing, 5% for staking
